

## Photoshop CS4 - Level 1

Days of Training: 2

### Overview

In this course, students use various tools and features of Photoshop CS4. They explore the interface, customize it, and use tools for selecting parts of images. They learn to use layers and to apply layer effects and filters for creating special effects.

### Prerequisites

- Windows Level 1
- A basic understanding of graphic design file formats and common design tools is recommended.

### At Course Completion

Upon successful completion of this course, students will have an understanding of the following topics:

- Using the Photoshop interface and navigation tools.
- Determining resolution and graphic type.
- Working with selections and layers.
- Enhancing images.
- Saving images for web and print.
- Exploring image modes and color adjustments.
